Now there are 8,000 telephones in farm houses in Indiana and they are being put in as rapidly as the farmers can get them. Six years ago there was not a telephone of any kind in the house of a farmer in the whole state. An authority undertakes to state inside of five years there will not be a farmer in Indiana who has money enough to own a horse and buggy, who will not have a telephone in his house.

Owing to the rapid increase of the cocaine habit among the white and colored residents of the state, there is agitation among the medical fraternity for the enactment of a law at the forthcoming session of the Indiana general assembly to prohibit the sale of the drug, except on prescription of a reputable, licensed physician. The druggists heartily endorse the movement and will co-operate with the physicians to place restriction upon the use of a drug, whose influence upon the people is becoming a serious menace to health and morals.

Nearly every mile of the main track of the Pennsylvania lines west of Pittsburgh is now protected by wire fence. The woven wire is so arranged that nothing larger than a rabbit can get through it. It gives the engineer the assurance of a clear roadbed, and they are no longer afraid of running into a herd of cattle at night. The wire is galvanized and will last many years. Practical tests have demonstrated the fact that it will stand for twenty years or more if good posts are provided. Over 1,000 miles of wire fence has been erected by this company.

Hon. John B. Stoll's announcement that he is about to organize a stock company to give opportunity for his retirement from the active management of the South Bend Times will cause general regret among his many newspaper friends. The extensive reputation and circulation of the Times has been built up by Mr. Stoll's individuality and able editorial writing, and it is doubtful if the divided management of a stock company will successfully supply his place. But thirty-four years of energetic work is a long time to devote exclusively to journalism, and Mr. Stoll has well earned a much needed rest. Elkhart Truth.

Senator Fairbanks is evidently displeased with the condition of things in Marshall county. It is gall and worm wood to realize that a pumpkin contest draws more than he can, especially after the exceptional efforts made by the republican committee.

Senator Fairbanks told a story about a friend reminding him of Daniel Webster, not in logic, eloquence or statesmanship. It was his breath that reminded him of Webster. Congressman Brick sat on the stage at the same time and it is said that Brick took this story of Fairbanks as a personal insult.

Senator Fairbanks, in his remarks this afternoon, said that the Democratic party closed down more factories than the trusts. Let us remind him that the Democratic party didn't close the Novelty works. It remained for the Republican party and the trusts to close down Plymouth's best factory.

Governor Mount has made his appointment of election marshals for each of the congressional districts of the state, whose duty will be to collect the returns from each of the counties and turn them over to the secretary of state, to be canvassed the fourth Monday in November. Aaron Jones, of South Bend, is named as marshal for the Thirteenth district.

A hardware traveling salesman was calling on our merchants in this city last week, and in the course of a business conversation, asked whether they wanted any fence wire and stated that he was not pushing it, as in the event of McKinley's election it would go to five cents per pound. We wonder how the farmer will like that. Will they vote for a party that is continually taking money out of their pockets to enrich the millionaires at their expense? Albion Democrat.

Such things will happen at times in a campaign and we hesitate to be severe with our republican friends. The chairman and his committee are not to blame. They have done their very best to make a grand opening of the Fairbanks meeting. We all know that for three weeks they have been calling on the faithful in the various towns of the county and have spared neither time nor money and because the people did not turn out should not be charged up to lack of effort on their part. We make this explanation so that there may be no unjust censure of the republican committee.

Head Professor of Political Economy at Chicago University Against McKinley.

Professor J. Lawrence Laughlin, author of many text books on political economy, who was one of William McKinley's most energetic supporters four years ago, has announced to his classes at the University of Chicago that he cannot cast his ballot for the McKinley administration. Professor Laughlin gives as his reason President McKinley's attitude on the question of imperialism.

"The course of the present administration is opposed to the very origin and genius of our institutions," he says, "and I cannot vote for McKinley."

Professor Laughlin is head of the department of political science at the University of Chicago. He believes that American commerce can never be increased by the methods of imperialism alone.

The Preacher and Politics.

At the ministers' meeting Monday the above topic was opened by Rev. Raymond. In part he said: "Politics is temporal, religion is spiritual. The preacher has neither time nor permission to interest himself actively in the minor affairs of men. I always vote, but if any man would have a right not to vote it is the preacher. He can show no leaning in partisan politics."

Discussion followed. Rev. McKenzie said: "We are preachers of the gospel, but we are American citizens as well, and therefore have the franchise, hence are responsible and must not shirk. There is such a thing as the preacher out of his pulpit, yet a minister must be discrete in what he says. It is not his business to make political speeches. Other men can do that. I have no sympathy with the man who is too religious to vote."

Rev. Parrett said: "It is a very critical question. I always vote, but have always tried to be prudent, considerate and inoffensive in my political preference. If all the ministers of the republic would let their influence be felt we would have a better political life. I have preached patriotism, but never politics."

Rev. Hartman closed the discussion: "The minister is a man of influence; his influence should be used for the spiritual welfare of men. In a land where parties are so equally divided, it will not do for either party to claim to be all right and the other all wrong. Hence, the issue cannot be even largely a moral one. If it were, every preacher would be in duty bound to herald the side of right, in the pulpit and out of it."

Big Lapaz Meeting.

No more successful rally has ever occurred in North township than the one last Friday at Lapaz, on which occasion a tall Bryan and Stevenson poll was raised and an able presentation of the issues was made by Hon. Samuel Parker. There were more than 500 people at the meeting but all could not get into the hall to hear the speaking. It was a rousing meeting and the democrats of north believe that a splendid record will be made on November 6. There is nothing slow about the democracy of old North township.
